

How to care for your Palmeirah piece

- ★ To avoid the creasing, your macrame creation should always be on a hanger.

- ★ Be sure to use your Palmeirah drawstring bag to transport your macrame pieces, hanging them as soon as possible for the threads to stay straight and crease free.

- ★ Hand wash your garments by gently rubbing them, using water and a little liquid soap. Rinse thoroughly in clean water and gently shake the piece before leaving it to dry in the shade. Hang the piece making sure the threads hang freely.

✗ Never iron your macrame.

Remember, your Palmeirah creation is a delicate handmade piece, but with a little care it will be with you for a long time.

We hope you enjoy your piece as much as we enjoyed creating it.
