

How to care for your Palmeirah Bikini

★ Always hand wash your bikini by gently rubbing it, using cold water and a little liquid soap.

★ Rinse thoroughly in clean water, then lay the piece flat on a clean, dry towel and gently press the water out.

★ Avoid wringing out the bikini in a twisting fashion as this will damage the seams and stretch the fabric/elastic.

★ Avoid, as much as possible, wearing coloured clothes on top of the bikini when wet, as the colours may transfer to the fabric of the bikini.

★ Finally, never iron your Palmeirah Bikini.

Remember, your Palmeirah creation is a delicate handmade piece, but with care it should last for many years!

We hope you enjoy your piece as much as we enjoyed creating it.
